Creedom "I Wish..." · Gemini prompt pack

19 images in order. For each one: start a message in Gemini, attach the images listed under **Attach** in that order

(the files are in the `attach` folder, plus images you made earlier), paste the prompt, send. Save the result with the

file name shown, then upload them all to me when they're done.

Rules that keep it working (from the AI skits guide):

Use the image model (Nano Banana). If Gemini asks, pick "Create image".
Always attach the blank canvas last. C_blank_9x16.png for vertical shots, D_blank_16x9.png for the character

sheet. Gemini copies the shape of the last image, so this keeps every shot vertical 9:16.

If an image comes out wrong, don't start again: attach it and ask for one change only, starting with

"Keep EVERYTHING the same, change only: ...". One change at a time.

Check Cree every time: hot pink #F343A2, egg shape with **no neck**, big glossy black eyes with **two white catchlights**,

small rounded **yellow-orange** beak, short rounded wing-arms, stubby yellow-orange feet, smooth matte plush, **no

feathers**. If he's wrong, fix him before moving on.

Don't worry about the small Gemini sparkle in the corner. I crop it out in the edit.

The two descriptions every prompt uses (already written into each prompt below):

> **CREE:** a small cute mascot: one soft egg-shaped body, head and body in one form with no neck, slightly wider at the
> bottom, as wide as he is tall; hot magenta-pink all over (#F343A2) with smooth matte velvety plush-toy material and a
> soft subsurface glow at the edges; big round glossy eyes, white with large black pupils and two white catchlights,
> set about a third of the way down; a small rounded yellow-orange beak; short rounded wing-arms used like hands; two
> stubby yellow-orange oval feet; no feathers. Exactly as in the Cree reference images.

>

> **THE CREATOR:** a young male content creator in his early twenties, stylised to match: soft rounded proportions, a

> simple friendly face with big expressive brown eyes and thick expressive eyebrows, messy dark wavy hair, a plain

> oversized cream hoodie, grey joggers, white sneakers, no logos.

Style line (in every prompt): premium stylised 3D animated short, like a feature-animation film: soft rounded

shapes, smooth matte designer-toy materials, gentle cinematic lighting, shallow depth of field. Clean image: no text,

no labels, no logos, no watermark, no glow effects, no lens flares.

Part 1 · The characters and the set

```
Character turnaround sheet of ONE character shown three times side by side on a plain warm grey studio background:front view, three-quarter view, side profile view. Full body from head to sneakers, standing, neutral relaxed pose.The character is a young male content creator in his early twenties: soft rounded proportions, a simple friendly facewith big expressive brown eyes and thick expressive eyebrows, mouth closed, messy dark wavy hair, a plain oversizedcream hoodie, grey joggers, white sneakers, no logos.Render him in the EXACT same art style as the first reference image (the pink mascot): premium stylised 3D animatedshort, soft rounded shapes, smooth matte designer-toy materials, warm soft studio lighting. Do not include the mascot.Match the shape of the last reference image (wide 16:9). No text, no labels, no logos, no watermark.
```

If something's off, fix it with: `Edit the reference image (the character turnaround sheet). Keep EVERYTHING the same:

same three views, same style, same face, same background, same lighting. Only this change: [one change]. No text, no

labels, no logos, no watermark.`

Empty set, NO people, NO characters, NO creatures. Vertical 9:16 film still. Same premium stylised 3D animation style,materials and soft cinematic rendering as the reference images.A cosy, slightly messy bedroom content studio at night:
```

```
a wooden desk facing the camera with a closed laptop, a phoneon a small tripod,
a pink desk lamp and a mug; a ring light on a stand to the left; behind the
desk a big window witha deep blue night sky, stars and a crescent moon; warm
fairy lights strung along the wall; a bed with a pink blanketin the back right
corner; posters and a small shelf with plants; crumpled paper balls on the
floor. Warm lamp light onthe desk, cool blue moonlight from the window, soft
violet shadows, shallow depth of field. Camera at seated eye level.Empty space
in the top third. Plain, uncluttered bottom-right corner. No text, no logos, no

Vertical 9:16 film still, same style and colours as the first reference image.
The view through the bedroom windowat night: a dramatic deep blue sky with
fast-moving clouds and stars, crescent moon. Far away, small in the sky,
CREE(the pink mascot from the second and third reference images, exactly on
model: one soft egg-shaped body with no neck, hot magenta-pink #F343A2 smooth
matte plush, big round glossy eyes with two white catchlights, small rounded
yellow-orange beak, short rounded wing-arms, stubby yellow-orange feet, no
feathers) flies past like a superhero, body stretched forward, one wing-arm
pointed ahead, leaving a thin soft pinkstreak behind him. He is small in the
frame, just a teaser. No people. Empty space in the top third. Plainbottom-
right corner. No text, no logos, no watermark, no glow effects.

What I make from these

End card: made from your pack's Cree poses, so no image is needed.
The edit: in code, following step 9 of your guide:

- characters cut out so they breathe

- mouths that move with the voice, and blinks

- slow push-ins

- twinkling stars and fairy lights

- word-by-word captions with no box

- wish and fix cards

- Cree's gibberish with speech clouds

- the creator's voice and the music

- no grain, no jitter

When you're done: upload all the images here in one go (or a few at a time), named as above.
